MSM-UMR Alumni Association Board of Directors Meets

The semi-annual meeting of the Board of Directors was held on the Friday of Homecoming, October 14, 1977. Officers and directors in attendance totaled 35, the best turn-out ever. Individuals from both coasts were present and Roy Perry, '40, director at large, flew in from Kuwait on the Arabian Gulf.

Excerpts from the minutes follow:

ATHLETICS STUDY COMMITTEE: Joel Loveridge reported that generous additional funding is necessary to maintain respectable athletic activity because of increased student costs, multiplicity of sports and the addition of at least a limited women's athletic program. Because of these influences, only 42 of the 57 allowed grants-in-aid have been financed at UMR, and it is obvious that UMR's athletic standing can only be protected by the expenditure of additional funds.

PUBLICATION OF "MSM-UMR ALUMNUS": Frank Mackaman described the current distribution policy for the "Alumnus":

2 issues per year to all alumni of record

4 issues per year to annual fund donors only.

He raised the question as to whether this policy should be changed; it is currently under study and he plans to submit a recommendation for change to the next Board meeting.

President Bauer then invited a reconsideration of the proposed 1977-78 and 1978-79 budget items as previously presented. A motion was made and seconded to adopt the proposed budget as presented. Motion carried.

A motion was made and seconded that the Association contribute \$5,000 to an Alumni Association Gale Bullman memorial fund within the Athletic Department with the prospect of this serving as "seed money" for other contributions. Motion carried.

ALUMNI ALLIANCE: Art Baebler reported on recent UM Alumni Alliance activity. Indications are that the Alliance will be serving an increasing role in the promotion of the University; particularly in the justification of the University budget to those who influence appropriations. This should be accomplished through a number of changes in activity; namely:

Continuation of the 1 day "legislative" session.

The matching of legislators with alumni who can be of constructive influence.

Attempts to increase the University's influence with the CBHE.

Publication of more factual information in the "Resource Bulletin" and decreasing its frequency to semi-annual.

RECIPIENT RESEARCH: George Schillinger reported that past recipients of the Association's student financial aid showed twice the rate of membership in the Association compared to the total alumni rate. He will be following up on this to further increase the rate (40%) and possibly also increase gift amounts.

DEVELOPMENT ACTIVITY: Paul Dowling reported on the present activities of the Development Council. These include the promotion of geographical parents' organizations and encouragement of the involvement of an industrial group as an advisory group to the campus. The parents' greatest contribution can be the influencing of their local legislators.

DEVELOPMENT COMMITTEE: Jim McGrath presented a report on his committee that proposed an Alumni Association sponsorship of a departmentally oriented Industry Relations Program. A motion to pursue the program was seconded and carried.

OLD BUSINESS: Relative to the Extension Summer Program, Frank Mackaman reported that the Engineering Management Department will be making a presentation next week relative to this program.

NEW BUSINESS: The Board was in general agreement that annual fund contributors should not continue to be solicited for contributions after they have made their annual contribution.

Complete copies of the minutes are available upon request to members of the Association.

Annual Meeting—MSM-UMR Alumni Association October 15, 1977

President Bauer called the meeting to order at 9:10 p.m. in the Centennial Hall of the University Center.

President Bauer reported that the Board of Directors held a productive meeting on Friday, October 14. A summary of actions taken will be published in the December issue of the "Alumnus". He also reported a gain in Association income of 81% between the 1975-76 and 1976-77 fiscal years: from \$84,426.22 in '75-76 to \$152,825.22 in

'76-77. The Association's fiscal year continues to be September 1 to August 31 in spite of the change to the calendar year basis for the Annual Alumni Fund.

The following were certified to have been elected to office in the mail ballot:
Re-elected were:

Allan H. LaPlante '63 Director-at-Large
E.L. "Roy" Perry '40 Director-at-Large
J.D. Patterson '61 Area Director
Robert Klorer '44 Area Director
George Schillinger '63 Area Director

Elected for a first term were:

Ray T. Ruenheck '50 Area Director
William D. Busch '42 Area Director
Leonard C. Kirberg '66 Area Director
Victor J. Hoffmann '60 Area Director

There being no further business, the meeting was adjourned.

Respectfully submitted,
Robert V. Wolf, Secretary

New Area Directors Elected

New directors elected by mail ballot this fall were:

Ray Ruenheck

For zip code 00-14, Ray Ruenheck, '50, of 7 Montview Rd., Chelmsford, Mass., 01824. Long a member of the Association, Ray is Principal Engineer for Raytheon in West Andover.

Leonard Kirberg

For zip code 63-65, Leonard Kirberg, '66, 331 Carmel Woods Drive, Ellisville, Mo. 63011. Len is a Senior Engineer with Horner and Shifrin of St. Louis. He is past-president of the St. Louis Section.

Victor J. Hoffmann

For zip code 80-90 & 95-99, Victor J. Hoffmann, '60, of 31057 East Lake Morton Drive, Kent, Washington 98031. Vic is president of Industrial Mineral Products, Inc. in Ravensdale. He is a past-president of the Northwest Section of the Association.

William D. Busch

For zip code 35-45, Bill Busch, '42, of 20001 Idlewood Trail, Cleveland. Bill is District Manager of the Pettibone Companies. He has been the Association's man in his area for many years.

The new directors replaced Bill Flood, Harold Kosten, Bob Patterson and Thor Gjølsteen who were not eligible for re-election because they had served two terms on the Board. A complete listing of officers and directors is printed on the inside front cover.

1977 Alumni Awards Banquet

The Alumni Awards Banquet is the closing official event of Homecoming. This year 326 people attended the event which was held in the University Center on Saturday evening. They heard from University of Missouri President James C. Olson and UMR interim Chancellor Jim Pogue. MSM-UMR Alumni Association President Dick Bauer, '52, presided. The program included the presentation of first semester gifts to the University and Bauer handed checks totaling \$28,500 to the appropriate officials. The Banquet closed with the adjournment of the annual meeting of the Association.

However, the major portion of the program was devoted to the presentation of the Alumni Awards. This year thirteen individuals were honored and President Bauer called each to the podium and made these remarks:

WAYNE J. BENNETSEN

St. Louis, Missouri

President, White-Rodgers Division, Emerson Electric Company

Wayne Bennetsen earned the bachelor of science in electrical engineering in 1941 and while on the campus had a distinguished career as a scholar, athlete, and editor. In 1960 he was awarded the degree Electrical Engineer by his Alma Mater. After service in World War II as a naval officer, he joined Emerson Electric and is now president of the White-Rodgers Division of that company. We are pleased to recognize his professional accomplishments as well as his service to the Association which extends from his promotion of the annual Miner-Wash U games to his service as a class coordinator.

WAYNE J. BENNETSEN

LESTER E. FIELDS

4/MSM Alumnus

LESTER E. FIELDS

Bedford, Pennsylvania

Vice President-Group General Manager, Kennametal, Inc.

Les Fields earned the bachelor of science in metallurgical engineering in 1948. His campus career was interrupted and, after World War II he was active on the MINER and was a student assistant in drawing. He has brought to his career a unique combination of professional expertise and a talent for sales and marketing and he brings this unique combination to the benefit of his extensive community efforts. We are proud to recognize his many accomplishments this evenings.

DAVID S. GOULD

DAVID S. GOULD

Canton, Illinois

Vice President, Caterpillar Tractor Company

David Gould is also a metallurgical engineer. He earned the bachelor of science in 1951, the master of science in 1954, and the doctorate in 1957. He also holds the degree master of science in industrial management. Since 1957 he has been with the Caterpillar Tractor Company serving in domestic and foreign assignments and was until Monday the general plant manager of the company. We are proud to recognize his distinguished career on this occasion.

HARLEY W. LADD

Tulsa, Oklahoma

Port Director, Tulsa Port of Catoosa

Harley Ladd graduated the Missouri School of Mines in 1940 with a bachelor's degree in civil engineering. In addition, he holds the master's degree in industrial engineering from New York University. Commissioned in the U.S. Army Air Corps in 1941, he was integrated into the Regular Army Corps of Engineers in 1947 and retired as Colonel in 1968. He is a multi-varsity letter winner and all-conference football player. Harley is an avid Miner fan and an active member of the Academy of Civil Engineers and a frequent visitor from Oklahoma, where he is port director, Tulsa Port of Catoosa. We are pleased to honor Colonel Ladd tonight.

HARLEY W. LADD

BOB L. MORNIN

BOB L. MORNIN

Lakewood, Colorado

Senior Vice President, Adolph Coors Company

President, Coors Container Company

Bob L. Mornin received both bachelor's and master's in ceramic engineering here. The first in 1948 and the second in 1949. Since 1954 he has been with the Adolph Coors Company, first with the Porcelain Company and more recently, the Container Company. Now president of Coors Container Company, he also is the senior vice president of the parent Adolph Coors Company. Bob, who is being recognized for his outstanding accomplishments, is reported to have traveled from Golden to this event in a refrigerated truck.

JAMES A. NEUSTAEDTER

Pittsburgh, Pennsylvania

Manager-Engineering; Oil & Gas, Raw Materials Division, Aluminum Company of America

James A. Neustaedter is one of the five Neustaedters that appear on the alumni rolls. He earned his degree in 1943 in mining engineering and, after service in the army, joined the Alcoa Mining Company in 1946. Now manager-engineering; oil and gas-raw materials division, he is headquartered in the Alcoa Building in Pittsburgh. We are pleased to recognize his professional accomplishments and his long devotion to his school.

JAMES A. NEUSTAEDTER

JOHN M. BREWER

JOHN M. BREWER

Rolla, Missouri

Emeritus Professor, English, University of Missouri-Rolla

Professor Brewer came to Rolla to join the humanities staff at the School of Mines. Granted emeritus status in May, Professor Brewer is now retired but still makes his home in Rolla. The Alumni Association is pleased to be able to honor him, not only for his professional competence, but for the special attention he gave to the Glee Club for twelve years and for his service to the speech and debate program.

HARVEY H. GRICE

Rolla, Missouri

Professor, Chemical Engineering, University of Missouri-Rolla

Dr. Grice is a graduate of Ohio State University and came to Rolla to join the chemical engineering department after service as president of Graceland College in Lamoni, Iowa. A participant in all facets of university life, he has especially distinguished himself in his advisement of the Student Chapter of the American Institute of Chemical Engineers. During his tenure as advisor, this chapter has won national honors the past seven years. We are pleased that we are able to recognize his particular relationship to students which extends beyond the confines of the classroom.

HARVEY H. GRICE

VICTOR E. REEF

St. Louis, Missouri

Retired Professor, St. Louis Community College at Forest Park.

Most alumni who know Vic met him first through his participation at Rolla Night at The Engineers' Club of St. Louis. We are recognizing this evening Professor Reef's years of service counseling prospective students who wish to finish their education at Rolla. We are pleased to recognize Vic as one of the architects of the transfer student program which is recognized statewide.

VICTOR E. REEF

DAVID J. ALLEN

DAVID J. ALLEN

Rolla, Missouri

Assistant Director, Admission Office, University of Missouri-Rolla

Dave Allen is assistant director of admissions here at UMR and has been a member of the staff since 1969. In recent years the phenomenal growth in junior and community colleges has required a special attention from the senior universities. Dave Allen has been our man for this field. In numbers and in quality, Dave and his associates can be proud of the students who have come to us after community and junior college preparation. We are proud to recognize Dave for his efforts which extend far beyond the expected.

JEROME T. "JERRY" BERRY

Rolla, Missouri

Special Assistant for Mapping Requirements, U.S. Geological Survey

Jerry Berry graduated from the Missouri School of Mines in 1949 with a bachelor's degree in civil engineering. The record shows that he went with the United States Geological Survey upon graduation and I am certain that that is the place he worked to make a living. But, also since graduation, he has worked for his Alma Mater in a labor of love. A willing volunteer, where ever asked, he has been especially involved in the athletic program as sports information publicist and statistician. Jerry is an Honary Knight of St. Pat's which testifies to the affection the students have for him, and this award makes that same testimony for the Alumni Association.

JEROME T. "JERRY" BERRY

MSM Alumnus/7

WILLIAM H. WEBB

WILLIAM H. WEBB

Louisville, Mississippi

Emeritus Professor, Chemistry, University of Missouri-Rolla

Bill Webb is a professor emeritus of chemistry and an alumnus of this university where he earned his master's degree in 1939. Advancing through all academic ranks and, after years of service as chairman of the chemistry department, he is now retired and living in his hometown of Louisville, Mississippi. We are pleased that Bill has returned to receive this recognition from the Alumni Association. We recognize him not only for his outstanding ability as teacher, researcher, and administrator, but for the frank, wise and thoughtful counsel which he was always willing to bring to the concerns of this campus.

EDWIN G. MACHIN

Nashville, Illinois

General Superintendent & Consultant, Heavy Construction Industry

Ted Machin came to Rolla fifty-eight years ago to enroll in the department of civil engineering. He graduated in 1922 with the bachelor's degree in that curricula. He has followed his profession since that time as a civilian and, during World War II as an Army officer. Colonel Ted is an avid golfer and an avid supporter of his Alma Mater. And it is largely through his efforts as a class coordinator for the "Over Fifty Year Alumni" group that we have such a fine turnout this weekend. The Association is proud to honor Ted this evening.

Gale Bullman Multi-Purpose Building Dedication

Homecoming was the perfect time to dedicate the Gale Bullman Multi-Purpose Building, named to the everlasting honor of the former athletic director and head coach. "The memory of Gale Bullman will live forever through the M-Club Gale Bullman Award...and by naming the Multi-Purpose Building in his honor" read a portion of the memorial resolution adopted by the UMR faculty.

Immediately following the Homecoming All Alumni-Reunion Fieldhouse Feed held on Saturday, October 15, 1977, the hundreds present were privileged to participate in impressive

dedication ceremonies. Jerry Berry, '49, acted as Master of Ceremonies and the Reverend Scott Porter gave the invocation. The UMR Brass Choir and Vocal Quartet performed the "Alma Mater of the Mountains," the hymn of West Virginia Wesleyan College, Gale's undergraduate school. They closed with "Fight Miners".

Rex Williams, '31, president of the Board of Curators of the University of Missouri and a long-time friend of Gale's, made the official dedication for the administration. Jim Pogue, Interim Chancellor, representing the campus, recognized Gale's contribution to the in-

tramural program. John Powell, '43, secretary-treasurer of the Frank B. Powell Lumber Co., Rolla, represented the local community. Three alumni, all of whom played for Gale, contributed their memories of their coach and friend. Jim Stephens, '47, senior vice president of the Missouri Public Service Co.; Harold Krueger, '42, general manager of Kennecott Ozark Lead Co.; and Jim McGrath, '49, vice president of Fru-Con Corporation, were the three who represent scores of Bullman alumni in the audience. Mrs. Bullman, known affectionately by hundreds as "She Gale" made a moving response.

Jim Pogue, Interim Chancellor kisses Queen Diane Speer.

Dr. Jim Pogue, Diane Speer and Richard Bauer.

Dick Bauer also congratulates Queen Diane Speer.

Queen Is An Engineer

At the University of Missouri-Rolla, the queen is an engineer. Homecoming queen is Dianne Speer, center, a senior in geological engineering. With her are Dr. Jim Pogue, left, interim chancellor of UMR, and Richard Bauer of St. Louis, president of the UMR-MSM Alumni Association. Miss Speer is the daughter of Mr. and Mrs. Dale Speer of 111 N. Fulton, Carthage.

Miss Speer was nominated for queen by members of the Pi Kappa Alpha fraternity. She is a member of Kappa Delta sorority, Pi Kappa Alpha Little Sisters (vice president) and is active in several campus organizations. She served as vice president of the student chapter of the Association of Engineering Geologists, is an active member of the Society of Women Engineers and has been elected to membership in Kappa Mu Epsilon, honorary mathematical society.

Student Musicians Entertain at Homecoming

Students at UMR who spend part of their spare time playing with various UMR musical groups got a real workout during homecoming weekend.

Friday evening a jazz combo provided background music for the Silver & Gold Cocktail Party sponsored by the MSM-UMR Alumni Association at the St. Pat Church Recreation Hall. The same group, under the direction of Tom Ruess, visiting instructor of music, played for the alumni dance later that evening in the same location. Also on Friday evening, a 25-member pep band added color and spirit at the annual M-Club bonfire and pep rally on the intramural field.

Saturday noon a brass choir and vocal quartet, made up of multi-talented band members, enhanced the dedication ceremonies held at the alumni luncheon in the newly-named Gale Bullman Multi-Purpose Building. Shortly

thereafter, the Marching Miners, 102-members strong, began the pre-game festivities on Jackling Field.

Following the traditional homecoming pajama race, sponsored by the Interfraternity Council, some of the band members conducted a pie-eating contest. This somewhat messy activity is sponsored by Kappa Kappa Psi and Tau Beta Sigma, honorary band fraternities.

Just prior to the kick-off they entertained the crowd with "On The Mall" by Goldman, "The National Emblem March" by Bagley, and a special arrangement for marching bands of "Abide With Me." Following the traditional rendition of the "Star Spangled Banner" and trooping of the colors by members of Pershing Rifles, the band concluded its pre-game show with "Fighting Miners" in the "M" formation on the field.

At halftime, the band performed marching maneuvers on the field while playing "Here Comes The King," "String of Pearls," "Beer Barrel Polka" (a salute to the 50-year class), and the West Virginia Alma Mater in honor of the late Gale Bullman, former athletic director and football coach at UMR.

After the presentation of trophies for winning homecoming decorations and the two pre-game contests, coronation ceremonies for the homecoming queen took place. While the band played music from "Star Wars," Interim Chancellor Jim C. Pogue and Alumni President Richard H. Bauer announced the winner of the queen contest and performed the crowning ceremony.

Later that evening a small band combo performed for alumni in the Miner Lounge preceding the annual Alumni Awards Banquet.

Nominating Committee Solicits Suggestions

Bob Klorer, '44, requests suggestions of nominees be forwarded to the alumni office. A list of current officers and directors is carried on the inside front cover. Positions with a 1978 expiration date will require action. You are reminded that area directors must live in the area they represent and that officers must have served as directors for at least two years prior to nomination. All candidates for officer or director must have been contributors to the Alumni Association for at least two years immediately prior to nomination and must have an earned degree from MSM/UMR.

Association Acts As Receiving Agent

The MSM-UMR Alumni Association acted as receiving agent for the Jack Thompson and C. C. "Pete" Palmer memorial gift funds. The money received was ultimately transferred, in the first case to the Foundry Educational Foundation, and in the second case to the University of Missouri-Rolla. Donors to funds handled by the Association on an escrow basis are not listed in the Fund Honor Roll.

An Apology...

Perhaps there has been a Homecoming weekend when everything went off perfectly—but that was before my time. This year the football team gave us a victory and many alumni were most kind with their comments at the various affairs. There was a hitch in the Fieldhouse Feed Reunion event and it deserves a word of explanation. This was the first event of this type that our University Food Service had been asked to cater. The logistics broke down and the meal was late and some items were in short supply. The Food Service Manager has asked that I add his apologies to my own and that I am more that willing to do, for the Food Service

has been most cooperative with the Alumni Office and we like to believe that we have an excellent working relationship. Forewarned is forearmed and we are confident that any future Feed will please all in attendance as well as those who are doing all they humanly can to make the weekend a pleasant one for returning alumni. I would like to remind my readers that it was the same Food Service that provided the superb refreshments for our Silver and Gold Cocktail party on Friday night and also served the excellent meal at the Awards Banquet on Saturday.

MSM-UMR ALUMNI ASSOCIATION

UNIVERSITY OF MISSOURI - ROLLA

HARRIS HALL

ROLLA, MISSOURI 65401

MSM-UMR Alumni:

In recent years an increasing number of alumni have provided an increasing number of dollars to the MSM-UMR Alumni Association Annual Fund. The support level of the Alumni Association to various MSM-UMR activities has grown commensurately. I am most enthusiastic about keeping this trend positive, since there are so many present and projected programs which can be improved with a little external financial support.

Your Alumni Association, always a State of Missouri corporate entity, achieved full IRS 501(c)3 status early in 1976. This means that our gifts to the Association in any form and in any amount are now fully deductible as provided by law. In the past, to assure deductibility without question, large gifts were properly channeled directly to the University, but we now have the option of directing our gifts to the Alumni Association or to UMR, whichever makes us feel more comfortable.

In the past few years the Association officers and our executive vice-president have been asked many times to clarify the role of the Alumni Association in the overall development activity at UMR. I shall make an effort to do this, as I see it.

A development office and staff were established at UMR in 1965 separate from the Alumni Association office. The first objective was to undertake a "Centennial Challenge" campaign to raise funds for a student center. It was successful and resulted in construction concluded in 1973. An ongoing development program ensued, with a second major campaign undertaken in 1975 for the purpose of purchasing the Thomas Jefferson Residence Hall. This campaign successfully reached its goal in cash and pledges in February of this year. Alumni have played key roles in this effort in leadership and in funding. The development activity is now lead by Mr. Paul T. Dowling '40, past president of the MSM-UMR Alumni Association. The development department is now supporting an active campaign with divisions seeking gifts from alumni, corporations, foundations, parents, friends, faculty, and the Rolla community. The role of our Association in this campaign is cooperative and supportive.

Organization wise, the fund raising activities of our executive vice-president, Frank Mackaman, and his staff and the development director and his staff are coordinated by B. R. Sarchet, executive director of external affairs. Alumni volunteers aid in many divisions of the development effort. Our Association Annual Fund and the special funds administered by the Association board and committees represent an important part of the total UMR development effort. The Annual Fund receives and puts to good use the bulk of alumni gifts, which totaled \$134,117.32 in the fiscal year ending August 31, 1977.

To whom do I give? That's the most prevalent question arising when you receive invitations to give from several sources at UMR. The answer is simple: to UMR through the Alumni Association, or to UMR through the development activity, or to UMR through other groups who independently ask; e.g., the athletic department, the band, an academic department, the library, or a research center. All are worthy of your consideration.

There has been substantial growth in our own Alumni Association Annual Fund and in endowment earnings. Disbursements in support of UMR are growing too, the purpose selected by your elected Board of Directors in amounts budgeted by your Board of Directors and guided by recommendations from standing committees.

Your continued financial output is appreciated by the students who ultimately benefit. Private giving is the key to a level of excellence in the learning experience not achieved through appropriations alone. Keep up the good work!

Very respectfully,

Richard H. Bauer, President
MSM-UMR Alumni Association

Century Club

The 1977 Fund year began in September of 1976 and was extended beyond the normal close of August 31, 1977, until December 31, 1977. The ground rules for membership in the Century Club provide that any individual who makes gifts totaling \$100 in an Annual Alumni Fund campaign shall be a member. Further, corporate gifts which are to match gifts of individual alumni to the Fund are part of the calculation.

The Century Club Certificate reads: "An organization of alumni founded on May 27, 1967, to aid and support the University of Missouri-Rolla through substantial gifts to the Alumni Association Annual Alumni Fund."

Honor Roll Of Alumni Fund Contributors

The Honor Roll for the 1977 Annual Alumni Fund contains the names of those who have made gifts between September 1, 1976, and December 15, 1977. First time donors to the 1977 Fund who made gifts between December 15 and December 31, will be listed in the February MSM Alumnus. Every reasonable care has been taken to include the names of all who made gifts to the 1977 Fund; however, errors are bound to occur and we would appreciate notification of them. Any corrections will also be printed in the February Alumnus.

UNIVERSITY OF MISSOURI - ROLLA

Office of the Chancellor

210 Parker Hall
Rolla, Missouri 65401
Telephone (314) 341-4114

Dear Friends,

The next few pages provide a brief glimpse of private giving to UMR during the 1976-77 academic year. A year in which UMR acquired a residence hall for an additional five hundred students and received for the first time over \$1,000,000 in gifts.

UMR greatly appreciates the generous giving from her many friends, both corporate and individual, and I am pleased to submit this report for your review. The donors listed made contributions to the University during the period July 1, 1976 through June 30, 1977. Gifts from the UMR-MSM Alumni Association are included.

You will note that the financial aid program received almost 40% of the gift income. This is in keeping with its high priority according to recommendations of the Faculty Advisory Committee for Institutional Development.

A special thank you is extended to the many volunteers who have given not only financially but also of their time and services to make this year's results possible.

Cordially,

Jim C. Pogue
Interim Chancellor

RECORD OF GIFTS TO UMR 10 Year Record

NUMBER OF UMR CONTRIBUTORS

Memo to: Friends of UMR
 From: Paul T. Dowling, Chairman
 UMR Development Council
 Subject: 1976-77 Development Report

Gifts to UMR reached a new and ail time high during the 1976-77 fiscal year. For the first time we surpassed the million dollar plateau, receiving \$1,056,205. My personal thanks to each of you included in this report.

I must get on my soap box just for a moment, because I still have folks ask me why one ought to consider contributing to a tax-assisted institution. The question may have been valid some time in the past, but it is not now.

The allocated money from the state of Missouri accounts for only 55% of the UMR operating budget. Student fees and tuition add another 20%. The remaining 25% is generated through research grants, auxiliary enterprises and gifts. You can readily see that our private gifts to UMR are so very important in adding that "extra" to bring UMR up to its highest capabilities.

During this fiscal period the UMR Development Council adopted a plan which identified seven primary groups for cultivation. These include corporations/foundations, alumni, parents, Rolla community, faculty/staff, special gifts and planned gifts. Each group has its chairman and working committees are being established.

The goal for 1977-78 has been set, \$1,100,000. Thank you for helping reach the mark in '76-77...please help us achieve our new objective in '77-78.

 Paul T. Dowling

Suggestions Solicited

The Awards Committee of the Alumni Association is always pleased to receive suggestions of people who should be considered for the Merit, Service and Achievement Awards. The three types of awards cover most areas of individual effort which should be recognized by the Association. It is not necessary for the suggestor to pre-select a type of award to be considered, as the committee will judge in the appropriate category according to the supporting information on hand. Regulations of the committee which are important to the person making nominations are these: (1) Awards are not normally made to a person during his reunion year, and (2) No nominations are discarded; they are carried forward from year to year. Just recently, past awardees were asked to make suggestions and have brought forward some excellent names, many new to the files of the committee. We ask that you consider forwarding your suggestions to the Alumni Office. Following is a list of those who have been honored in past years:

UMR Band Gets New Uniforms

For the first time in the history of the university, a full set of uniforms has been funded for the band. They are a modified western jacket and trouser accented by a white stetson-type hat and white shoes. The coat and trouser are a basic dark green with the school colors silver and gold used for trim. The back of the jacket has an insert bearing the name "MINERS". Optional wear includes a ruffled shirt front and bow tie and a white turtle neck. The auxilliary unit, which consists of girls who perform with flags, pikes, and pom-poms, wear gold uniforms with black and silver accessories.

There have been a variety of uniforms for the band. Shortly after the band program was formalized as the MSM-ROTC Band, the band members wore either the ROTC uniform or a uniform consisting of white trouser, gold sweater, cape, and cap. After World War II, the band wore the ROTC uniform until the mid 1950's when the Student Council purchased a grey double breasted band uniform. These were used alternately with the ROTC uniform until 1969. At that time, the band wore, for two years, the old set of black uniforms which had been used by Marching Mizzou in Columbia. In 1971, gold blazers, black turtleneck shirts, and grey bowling trousers were

bought as a temporary measure (which was to last six years). Last year, with 80 of the band in blazers and 20 in blue jeans, it was time for action.

The new uniform was designed with student input, and reflects a combination of influences from formal band uniform designs plus the popular corps-style trend. The uniforms were tailored for the present band membership, with about twenty extras on hand to assure proper fits for future bandpersons. Some ten special sketches and six sample uniforms were considered over a several year period. The uniforms are the product of the Niesinger Uniform Company of Neosho.

Fall Sports Wrap-Up

BY ED MURPHY

It was a team that nobody gave a chance...a team of engineers and economists and chemists who weren't expected to be able to play football against physical education majors and other big guys who play at the other state schools.

Picked to finish sixth in the MIAA, the Miners stunned everyone by becoming co-champions November 19 with a 21-19 win over pre-season conference favorite Northeast Missouri. They share the title with Southeast Missouri with identical 4-1-1 league and 7-3-1 overall records.

It was a season to be remembered by players, coaches and Miner fans. Expectations were low so nobody was surprised when the Miners lost two of their first three games. They did win their first opener in seven years, taking the measure of Missouri Valley 33-13.

Junior running back Terry Ryan gave a preview of what was to come for the season by rushing for 177 yards in that game. And senior quarterback Kenny Vaughn completed 16 of 26 passes for 240 yards and three touchdowns. Ryan went on to shatter his single season rushing mark of 929 yards by gaining 1,314 in a record 290 attempts. He finished third in the nation in rushing and was second in the conference to Kirskville senior Steve Powell who had 1,372. Vaughn broke Greg Haug's 1974 passing yardage record of 1,696 by finishing with 1,888 aerial yards. That also broke a 1966 record held by Ron Lewis for total offensive yardage.

Things were more predictable in the second game of the season. The Miners dropped a 21-14 decision to a rugged Missouri Western team. A young defensive secondary showed its inexperience in the game, giving up two TD passes. But they were destined to get better.

The third game of the year was a lesson in frustration. Vaughn passed for 288 yards, Ryan rushed for 103, junior tight end Andy Cox caught a Miner record 11 passes. And yet, Missouri Southern dumped UMR 43-9. The Miners lost four fumbles, Vaughn threw two interceptions and was sacked eight times for minus 87 yards. But UMR would improve.

The defense began to come of age the

following week in Pittsburg, Kan. While the offense sputtered, the Miner defensive unit held the Gorillas in their own end of the field most of the night and the Miners were able to win 16-14. Freshman defensive backs Craig Heath and Bill Grantham each intercepted a pass as did senior monster man Bill Warwick. The Pittsburg offense was held to only 218 yards including a 6 for 19 passing attack for 63 yards.

Ryan had his fourth 100-yard game

shutoff of the year, 14-0. UMR allowed the Tigers only five first downs and 147 yards, and the lowest totals since 1970. Ryan rushed for 129 yards and scored both Miner touchdowns.

The Miners played Central Missouri State before the big Homecoming crowd October 15 and it looked as if the Mules were going to spoil things for the visiting UMR alumni. They scored two touchdowns in the first half and ap-

SENIOR OFFENSIVE TACKLE John Moles (74) and sophomore tackle Ralph Weatherspoon (66) opened the hole for Vaughn's one-yard touchdown dive against Warrensburg.

of the season with 121 but Vaughn could hit only 9 of 22 passes for 113 yards. But things were looking better for the Miners with an open date the following week. Three defensive stalwarts had been sidelined with injuries up to now and the week off would enable them to get back into action. Junior all-conference linebacker Kevin Wolf, senior co-captain nose guard Kent Lewis and junior tackle Joe Kinsella, probably the strongest man ever to play at Rolla, would all be in the lineup for the conference opener against Lincoln.

The Miner defense had a field day against Lincoln in posting the first

peared to have things going their own way. Late in the second period, Vaughn scored from a yard out to give the Miners hope as they trailed 14-7 at intermission. Then Vaughn took charge in the second half throwing TD passes to wide receiver Dave Hall and tight end Andy Cox to seal the 20-14 victory. Once again, the defense played well, limiting the Mules to 134 yards rushing and only 68 passing.

UMR lost its first conference game the following week against the Bears in Springfield. It was a game the Miners felt they should have won but SMS prevailed 26-17. Ryan's 100-yard string

was snapped at six as he gained 99. Vaughn has a terrible passing day completing only 9 of 34 with two interceptions.

That set up a key league game against Maryville in Rolla. The Miner defense was really up for the Bearcats and UMR won handily 27-6 with the Maryville touchdown coming at the end of the game against the reserves. UMR forced three fumbles and three interceptions and the game was even more lopsided than the score indicates.

with 3-1 records going into the game. The Indians scored once in the first and second quarters and led 14-0 at halftime. Then, early in the third period, that Miner defense blocked a punt and senior defensive end Gary Misak fell on the ball in the end zone for a TD. In the fourth quarter, Ryan scored from 5 yards out to knot the score at 14. Both teams had opportunities to win the game in the fourth period. The Indians drove to the UMR 18 where the Miner defense held. Cape's All-America kicker

put its 3-1-1 record up against Warrensburg.

Kirkville and Rolla played on a muddy Jackling Field and neither team was able to dent the other in the first quarter. In fact, there were only 27 seconds left in the second period when the Bulldog's Steve Powell scored from two yards out. The Miner defense blocked the extra point and Kirkville led 6-0 at halftime.

In the third quarter, senior defensive back Don Renner fell on a Bulldog fumble at the Kirkville 24. Seven plays later, Vaughn bootlegged around his right end for a touchdown and Rosenauer's extra point gave the Miners a 7-6 lead. Two minutes later, the Bulldogs scored. The two-point attempt failed and Kirkville led 12-7. Later in the period, the Miners took over at midfield and marched in for another score with freshman fullback Ron Bretz going over from the two.

The Miners' defense scored the clincher late in the fourth quarter. After a 96-yard touchdown pass by Kirkville was called back for holding, the UMR defense forced the Bulldogs to punt from their own end zone. The punt was blocked and freshman tackle Kelly Rudolph fell on the ball for the touchdown. Kirkville scored with two seconds remaining in the game to make it close but the Miners had won a share of the league crown.

Cape defeated Lincoln to keep pace with the Miners but SMS was upset by Warrensburg to drop to fourth place behind Kirkville.

The future looks bright for Miner football with only one senior starting on offense and four on defense. But next year is a long way off and everyone will be shooting at the Miners. For sure, nobody will pick them to finish sixth in 1978.

Other Miner fall sports had varying degrees of success. The women's varsity volleyball team had a disappointing 9-16 record and failed to make the state playoffs for the first time in three years. But the team was riddled with injuries and finished the season with only six players. Women's basketball began November 18 and the team suffered two early road losses. But coach Annette Caruso says she has the best team ever

SENIOR QUARTERBACK Kenny Vaughn sets up to pass in UMR's Homecoming game against Central Missouri. Vaughn led the Miners to a 20-14 come-from-behind victory over the Mules.

The following week, the Miners hosted Washington University and jolted the Bears 49-10. Although Ryan was held to his lowest total of the year, 77 yards, Vaughn hit 11 of 22 passes for 280 yards and three touchdowns. The defense picked off two passes and recovered three fumbles in routing the outmanned Bears.

Things weren't so easy the following week when the Miners traveled to Cape Girardeau. UMR, Southeast and Northeast were all tied for the MIAA lead

Mike Wood attempted a 35-yard field goal that was wide. Then UMR drove down the field with time running out. They made it to the Cape 19 where the Miners' junior kicker Tom Rosenauer attempted a 36-yard field goal with seven seconds remaining in the game. It missed by inches.

And so, the last game of the season was played for the MIAA championship. Kirkville had a 4-1 record and played UMR at 3-1-1. Cape, also 3-1-1 played at winless Lincoln. Southwest

at UMR and expects a good year from her coeds.

The Miner cross country team had a difficult time in the MIAA championships finishing last. But the conference has the number 2 and 5 team in the nation in SMS and Warrensburg and competition is brutal. Freshman Brent Haefner led the Miners in scoring all year and posted the fastest time ever by a UMR freshman in the meet against St. Louis U., School of the Ozarks and Lin-

coln. The Miners placed eighth in the 15-team All-Missouri meet and defeated league rivals Lincoln, Northwest and Northeast.

The UMR water polo team experienced its best season ever winning the Mississippi Valley Intercollegiate Conference championship over such highly-rated teams as SIU—Carbondale and Principia. Water Polo is a club sport at UMR so the Miners were unable to advance to the national playoffs which are

reserved only for varsity teams.

Miner swimmers have posted some impressive early season accomplishments. UMR hosted their fourth Miner Relays November 19 which has become one of the biggest meets in the midwest. The Miners placed fourth behind SIU, Drury and Arkansas University. But Big-8 participant University of Missouri-Columbia finished fifth. On December 2-3, the Miners were invited to swim in the Big-8 Relays in Lawrence, Kan. They placed seventh in that meet and, although they were unable to beat UMC, they did finish ahead of Nebraska.

Miner basketball got underway November 26 and UMR was picked fifth in the conference. Fans are wondering if the cagers can duplicate the football team's feat. UMR won its home opener over Harris Teachers, 92-52. They played their first road game against Drury College in Springfield and the Panthers routed them 106-77. The Miners stopped Kansas State-Pittsburg 84-55 in Pittsburg and then ran their record to 3-1 with a 64-56 home victory over the University of Arkansas-Pine Bluff. They have scheduled Athletes in Action, Arkansas State, William Penn and the University of Alaska-Anchorage before playing in the MIAA tournament January 5-7 in Springfield. Conference action begins January 12.

TERRY RYAN (41) protects the ball as the Mule defense keys on him. Ryan rushed for 1,314 yards in leading the Miners to the MIAA co-championship.

Alliance of Alumni Associations Of the University of Missouri

The Alumni Alliance met in Columbia on September 24, 1977. Members of the Alliance represent all four campuses of the University and meet semi-annually to conduct the business of the organization. UMR alumni members are Art Baebler, chairman, Dick Bauer, Peter Mattei, Joe Mooney, Ray Kasten, Bob Bay, Jim Murphy, Jim McGrath, and Frank Mackaman, staff. Jim Stephens of UMR was the founding chairman. The group heard from University President Jim Olson who gave an overview of the University with particular emphasis on the budget situa-

tion. The Alliance was asked to assume responsibility for presenting the case for the budget to the citizens of the state and their elected representatives. Duana Linville will staff this Alliance information program.

The Alumni Alliance will host a series of parties for various officials in metropolitan areas as well as the traditional Jefferson City Alumni Day for those elected officials who are most intimately involved in legislation for higher education in Missouri. The latter affair will be held January 31, 1978.

Alumni volunteers will have the opportunity to hear an "update" from University personnel and also to meet with their senators and representatives.

In these days of increased competition for tax revenues, it is important that the University and all state agencies present the case for funds in a manner which encourages a full understanding of the needs. Only then will the budget be judged on the merits of the case. All alumni are encouraged to follow the deliberations of those who control the funding from tax revenues.

Tri-State Alumni Meet

On November 12, 1977, alumni from the bootheel, little Egypt and Kentucky met in Cape Girardeau before the Miner-Cape football game. The meeting was held poolside at the Howard Johnson motel, an unusual and delightful place to gather. A fine buffet was arranged by organizer Bob Patterson. This group has traditionally met before the Miner-Cape basketball contest and this affair was prompted by the urging of those at the February meeting.

Association president Dick Bauer and wife Shirley were there, Nancy and Frank Mackaman, head football coach Charlie Finley's wife Dixie, an alumna of the Class of 1968; and Billy Key, athletic director, were the Rolla contingent. The alumni were pleased to have the parents of two current UMR students join them: Mr. and Mrs. Sherman Greer, whose son Louis plays quarterback, and Mr. and Mrs. Joe Rosenauer, whose son Tim is the place-kicker on the team. The Rosenauer's are chairpersons of the UMR Parents Program.

Reservations for the Cape meeting were made by: John A. Rood, '26, and guest Miss Bernadette Schulte; Mr. and Mrs. Sam Smart, '55; Wali Alam, '76; Carney and Oltha Fesler, '46; John and Judy Mulholland, '52; Gene and Nelva Gottschalk, '42; Stuart and Twyla Ferrell, '64; Mr. and Mrs. C. P. (Punch) Bennett, '54; Bob and Martha Patterson, '54; Mr. and Mrs. Lester Holcomb, '51; Dick and Shirley Bauer, '52; Bill Hawn, '76, and date; Cathy Hawn and date, Elmer and Clairlee Hawn, Jack and Ben Reickert, Mr. and Mrs. Greer, Mr. and Mrs. Rosenauer, Billy Key, Frank and Nancy Mackaman, Edward Hennecke, '68; Donald G. Crecelius, '41, and daughter; Bill and Clemie Stewart, '54; Stephen and Carolyn Boyd, '72; Larry and Sharon Meyer, '58; Max and Jo Ann Burgett, '54; Frank and Margaret Conci, '54; Jack and Joeline Painter, '50; and Charles K. Hyde, '59.

The game ended in a tie and with several resting in the bus, refugees from a bitter breeze.

Southern California Section

The 1977 Homecoming meeting of the Southern California Section of the MSM-UMR Alumni Association was held at the beautiful Elks Dome in Long Beach. I would like all Miners to someday visit this outstanding meeting facility, if for no other reason than to drool over a bar over 100 feet in length.

The film produced by University Information Services entitled "Missouri Tomorrow" was shown and appreciated by all in attendance. This film, however, loses some of its impact for alumni who are now facing social and technical problems in other parts of the country. Our school needs a film that will show the UMR research and alumni involvement in problems all over the nation. This

film could be used to stimulate alumni activities as well as motivational programs anywhere in the nation.

Those in attendance were: Mr. and Mrs. Edward Kayser, '16; Mr. and Mrs. Charles E. Diemer, '63; Mr. and Mrs. Welby King, '42; Arthur Liang, '70;

Jane Bennett, '68; Mr. and Mrs. Robert Topolse, '65; Ron and Pat Henson, '64; John and Phyllis Wilms, '43; Jim and Theta Gostin, '44; and Mr. and Mrs. Ted Weissmann, '49.

Alumni Meeting In Lima

On October 23, 1977, Dr. Rene J. Leonard, '61 was in Lima, Peru and hosted a luncheon which was attended by Edgardo Portaro, '61, Pedro Montori, '62 and Pierre Garrique, '63. Dr. Leonard was on his way the VII Pan American Engineering Congress in Santiago, Chile where he presented a paper

titled "Hydrogen Energy and its Ramifications to Latin America". Next fall Drs. Leonard, LeRoy Thompson, '56 and Jim Hahs, '61, all on the faculty of Florida International University, will be attending a conference in Brazil and will organize an alumni meeting during their visit.

Gold Coast Alumni Meeting

On November 19, 1977, Florida alumni met at the Coral Gables Country Club. The meeting was arranged by LeRoy Thompson and Rene Leonard. James and Margaret Menefee won the honors for coming the longest distance to attend; they drove in from Lehigh Acres near the west coast of the state.

LeRoy presided and introduced Frank Mackaman, who presented the program, ably assisted by Steve Brendle, who manned the balky projector. The group decided to hold the next meeting in the Orlando area, probably in mid-spring. Present were: LeRoy and Joanne Thompson, '56; James and Margaret

Alumnus Circulation

The ALUMNUS is published six times per year, February, April, June, August, October, and December. The December ALUMNUS carries a report of the Alumni Annual Fund, the Honor Roll of Donors, stories of Homecoming activities, Association reports, and results of elections. The other issues carry general news of alumni and the University.

The publication of the ALUMNUS is financed by gifts to the ANNUAL ALUMNI FUND. University funds do not pay for the magazine. The Board of Directors of the MSM-UMR Alumni Association sets the circulation policy and these are its guidelines:

- Each issue is mailed to all members of the most recent graduating class.
- Each issue is distributed to all faculty and staff members.
- Each issue is mailed to all University of Missouri Curators and University administrators.
- The December issue is mailed to all alumni of record.
- The other issues are mailed to donors to the Annual Alumni Fund, so that they receive six issues after the date of their gift.

This variation in mailing lists results in some problems. We get new items in a variety of ways and do not make it a practice to check to see if the news item refers to a donor to the Fund—that is not a part of the decision of whether to publish it or not. Consequently, we do publish items which refer to alumni who are not regular readers of the ALUMNUS. They never know. Frequently, we get a news item without any identification as to the alumnus involved.

So, if you have sent us an item and you believe we have ignored it, there are several tests you can make: first, are you a current donor so that you are on the mailing list for all six issues of the ALUMNUS (you are not current if you get Fund mailings), and second, was the item identified so that your name and relationship to UMR was clear. Let us know if we are guilty of missing a newsworthy item—that is not our intention.

MSM-UMR GRADS WORKING TOGETHER

At Maxon Corporation, Muncie, Indiana, MSM-UMR is well represented in both Sales and Engineering. John M. Berger (left), M.E. '68 and M.S. Purdue '72, Engineering; Robert T. Kracht (center), M.E. '48, Chief Engineer, and J. Craig Ellis (right), M.E. '38, Manager of Export Sales, get together at a recent Sales Meeting. Maxon Corporation is a world leader in the manufacture of valves and combustion equipment for critical industrial applications.

In an effort to be self-supporting in a wide range of activities including the semi-annual outings, field trips, honor banquets, and special projects, the student chapter of the AIME, Society of Mining Engineers, is offering for sale to alumni the antiqued brass buckle pictured above. Mail orders may be made through the use of the form below. The delivered price of \$5 per buckle will not only give the recipient a permanent handsome memento, but will support the worthwhile activities of students presently on the campus.

Orders and checks payable to the Society of Mining Engineers should be mailed to Randy Lubbert, SME, Mining Building, UMR, Rolla, MO 65401.

President's Message to The Citizens of Missouri*

One of the most dramatic events in Missouri's colorful past was the founding of the University of Missouri.

In 1839, only 18 years after statehood, the people of Boone County pledged \$118,000 to secure location of the new state university. Mass meetings, torchlight parades and house-to-house canvassing highlighted the campaign to raise the funds, a substantial amount in those days when Missouri still was in transition from frontier times.

The people, however, believed strongly in the need and worth of a great institution of higher education. That belief was supported by the monetary pledge which saw establishment of the University in Columbia. Four years later, in 1843, the University of Missouri graduated its first class of two members. UM was founded much in accordance with the philosophies of Thomas Jefferson, who believed that education was the foundation on which to build a great people. It was the first state university established in the Louisiana Territory acquired during Jefferson's administration.

St. Pat's Items For Sale

As a service for alumni we are publishing the following list of items offered by the UMR St. Pat's Board. If you are planning your own St. Pat's celebration you should place your order now to assure delivery and availability.

ST. PAT'S BOARD SALES

Sweatshirts, S, M, L, XL \$5.50
Stocking Hats 3.00
Engineer's Hats, S, M, L, XL 3.00
Garters 75¢
Buttons 50¢
70th Anniversary Goblets 3.00
Bumper Stickers 25¢

Checks should be made payable to the St. Pat's Board and mailed to the St. Pat's Board, c/o the University Center, University of Missouri-Rolla, Rolla, MO 65401. Be certain you include sufficient information so that your order may be filled promptly. Remember your name and address! It would be nice if you added some money for postage since the sale of items finances the Board's activities.

Today the University of Missouri is the state's most comprehensive higher education institution.

About 50,000 students received classroom teaching on the four campuses at Columbia, Kansas City, Rolla and St. Louis. As the state's largest research facility, UM carries on a wide range of research activities not only on the campuses, but also in many areas throughout Missouri. Extension, the means for transmitting knowledge to those not enrolled at the campuses, has centers in every county. Public service includes operating a hospital, a dental clinic and a veterinary clinic, as well as participation by faculty and staff in community and state studies and activities.

The University of Missouri is, to put it plainly, an institution whose primary mission is the serve Missouri and Missourians. How successfully it performs is tied in large measure to the degree of support received from the state and its citizens.

My fondest hope is that present-day Missourians would exhibit the zeal and pride in supporting the University that were shown in 1839. No doubt the need for support never has been greater.

Our society is complex and humanity faces terribly severe problems such as energy, food, and how to live together in peace and dignity. While not purporting to hold all the answers, the University of Missouri certainly has a role to play in seeking solutions.

In essence, Missourians need the University of Missouri, and the University needs the support of Missourians ...it's as simple as that.

A final thought: Keenly aware of the obligation for responsible stewardship, the University will ever be mindful to treat its resources as precious. The public has a right to expect no less.

Dedication Honors Alumnus

A new motor vessel assigned to the St. Louis District of the Corps of Engineers was named in honor of alumnus Percy E. Moore, a forty year veteran of the Corps. Mr. Moore, a 1930 graduate of MSM, died in 1974. He joined the Corps upon graduation and served in both the civil works and military operation and attained the rank of

major during World War II. His work on the construction of the nine-foot channel and with the waterways industry earned for him this distinguished honor. His widow, Zona Gale Moore, 733 Colebrook, Webster Groves, Mo. 63199, christened the Percy Elliott Moore at impressive ceremonies held on July 27, 1977.

St. Louis Industrialists Meet On Rolla Campus

A group of prominent St. Louis industrialists and businessmen met at the University of Missouri-Rolla Wednesday, November 16, to discuss their relationship with the campus.

The group was invited by Paul T. Dowling of St. Louis, a UMR alumnus and chairman of the board of the Nooter Corp. In his welcoming remarks, Dowling explained that the primary purpose of this program was to improve communications between UMR and the St. Louis business community.

B. R. Sarchet, executive director of external affairs at UMR, served as moderator for the day. He introduced Jim C. Pogue, interim chancellor, who gave a brief overview of the campus.

Rolla's three academic deans then explained the operation of their schools and college and pointed out the type of graduates they are producing. These speakers were James E. Halligan, dean of the School of Engineering; Ted J. Planje, dean of the School of Mines and Metallurgy; and Adrian H. Daane, dean of the College of Arts and Sciences.

The St. Louis guests were then given an opportunity to express their thoughts about the campus and what it is doing.

They were also asked how they thought UMR might better help them meet their needs.

After lunch, Sarchet summarized the morning's discussions. He assured those present that it is the intent of UMR to produce the graduates in science and engineering that are needed by industry.

"But we need your help and input if we are to provide these scientists and engineers," he said. "We want to know if you think they are receiving the training and are attaining the skills necessary to most effectively assist you with your manpower needs."

In closing, Sarchet said, "We want to assure you of our desire to graduate students who can help you meet the needs of society and, also, that these graduates can, if fact, operate effectively as problem solvers."

The remainder of the afternoon was devoted to discussions of research on the Rolla campus. Dr. David Summers talked about his research on hydromining, the use of high pressure water jets for mining. Dr. J. Derald Morgan then reported on the electrical engineering

power program. The closing sessions featured a tour of the campus and visits to various laboratories.

Those attending from St. Louis include: Milton Gaebler, vice president-engineering, Anheuser Busch, Inc.; Ralph Wolfram, director of engineering, Bank Building Corp.; James B. McGarath, vice president, Fruin-Colnon Corp.; Robert H. Widmer, vice president, General Dynamics Corp.; J. Harold Yeager, vice president, Mallinckrodt, Inc.; Merton G. Walker, corporate director of technical administration, McDonnell-Douglas Corp.; John E. Angst, vice president, Missouri Pacific Railroad; Frank E. Reese, vice president, Monsanto Co.; Richard J. Redpath, vice president and director, Ralston-Purina; Ted Schafers, business reporter, St. Louis Globe-Democrat; Joe Hatch, personnel relations manager, and Jim Bowen, chief engineer, Southwestern Bell; David L. Fenton, vice president, Sverdrup Corp.; Wayne B. Muskopf, vice president-manager of personnel, First National Bank in St. Louis, and R. L. Brueckmann, manager of manpower development, Alton Box Board Co., Alton, Ill.

The Department of Housing and Urban Development is granting a loan of \$154,000 to UMR. Granted under HUD's College Housing Loan Program, the loan is for rehabilitation of married student housing on campus to facilitate reduction of energy consumption.

Improvements for the 48-unit Nagogami Terrace apartment complex will include insulation of the outside walls and the roof of each of the four buildings and installation of doubles group windows in each apartment.

Work will be done unit by unit in order to create as little disturbance as possible to the tenants. Completion is expected by the beginning of the 1978-79 academic year.

The apartments are located at 14th and Bishop in Rolla, approximately two blocks from campus.
